From the Desk of Gregg Hull

Dear Friends and Neighbors,

Representative Jason Harper has been a courageous leader in the New Mexico House and I stand by him in his re-election. Rio Rancho has seen great public servants in the past, but none compare to Rep. Harper's commitment to the people of this community and the families of New Mexico.

Jason has championed sound fiscal policies and true conservative ideals in the House and we need his voice to remain there. He has displayed true statesman like qualities while serving, which allows him to be an effective leader for our community.

Jason is not one of the entrenched insiders of Santa Fe, he is a leader above the fray and has shown that he is there to represent us, not himself. For example, House Bill 371 that reforms Public Improvement District Law so homeowners are not subjected to massive property tax increases. This legislation was signed by Governor Susana Martinez and will protect future Rio Rancho families from harmful tax increases.

Everyone has heard about large corporations receiving tax payer funded handouts with nothing in return. That is no longer acceptable in New Mexico because of Representative Jason Harper. Jason sponsored legislation to stop corporate welfare in our state, forcing corporations that fail to meet basic terms to pay back the tax payer's money. House Bill 352 was signed into law by Governor Martinez and was widely supported.

As a member of the Tax and Revenue Committee, Representative Harper is an adamant supporter of reforming New Mexico's outdated tax code and making our state more attractive for job creators. He is a champion of the small businesses in our community and will never back down from the fight to protect them from more taxes and overbearing regulations.

Along with his long list of accomplishments in Santa Fe, I know Jason on a personal level. He is dedicated family man, always spending time with his wife and kids. Jason has always shown great compassion for the residents of this community and he truly understands what we need to succeed. He is a friend and I am honored to support this man of great character.
